Nerea Sarasola

Graphic Designer and front-end developer

Email adress: nereas14@gmail.com
Telephone number: 688 645 092

Ciao! My name is Nerea and I am a Graphic Designer and a Front-end Developer. I am an enthusiastic, consistent and creative person who is willing to make the best of herself when it comes to working on new projects both individually and as part of a team.

With a proactive approach, I am always willing to continuously learn and improve. I value collaboration and strongly believe in the power of teamwork to achieve common goals and exceed expectations. Currently, I am working in a comunication agency called Fidenet Comunicación and I am really interested in web animations, branding and CSS.

By clicking on this link, you can see my personal portfolio with the projects I have been creating: https://nerea-portfolio.vercel.app/home/

EDUCATION

2021-2023
AEG Escuela de Innovación Profesional
Senior Technician in Web Application Development.

During this formation I had the opportunity to increase my knowledge in the field of programming, web layout and project deployment. This way, I learned skills that would be useful for my professional career.

2017-2021
IED KUNSTHAL BILBAO
Degree in Higher Artistic Design Education in the specialty of Graphic Design.

During the four years of my degree, I had the opportunity to learn from great graphic design professionals. In addition, I was able to develop my skills in different areas of graphic design such as branding, signage design, web prototyping or layout design.

EXPERIENCE

26/06/2023 - Currently - Donostia (Gipuzkoa)
Junior Developer in **Fidenet Communication**.

I work as a support to development projects, as a front-end developer. In addition, I design and develop the management of websites created using Wordpress as the main CMS.

2022/07/15 - 2023/06/14 - Donostia (Gipuzkoa)
Work-linked training contract in the company
Fidenet Communication.

I prototyped and created web designs taking into account usability and user experience aspects.

2022/04/04 - 2022/05/31 - Tolosa (Gipuzkoa)
Internship in the corporation **Benio**, developing a application called Benio.

For a month I developed an application using Angular as the main technology.
